Analytics Data modelling, dashboarding, process improvement, requirements gathering, UAT

WORK EXPERIENCE

Financial Intern Sep 2026 – Present

Kensington Tours (Range Group) • Toronto, ON

- Executing test scripts, isolating defects and documenting process steps for a 2027 ERP replacement
- Reconciling financial data between the legacy system and its replacement, tracing variances to the point of entry

Teaching Assistant, Environment, Society & Government (COMM 394) May 2026 – Present

University of British Columbia • Vancouver, BC

- Supported **200+** students across environmental policy, corporate governance and stakeholder management
- Facilitated discussion sections and graded assessments to a consistent standard across the course

Teaching Assistant, Management Information Systems (COMM 205) Sep 2025 – May 2026

University of British Columbia • Vancouver, BC

- Supported **450+** students weekly, clarifying MIS concepts and troubleshooting Excel functions in class
- Streamlined grading workflows with instructors, improving marking efficiency course-wide

Accountant / Bookkeeper Jan 2023 – May 2024

Occasio Fine Homes Inc. • North Vancouver, BC

- Increased financial record accuracy **25%** by rebuilding invoicing as a structured workflow in QuickBooks
- Rerouted financial statement inputs through company-wide software, removing repeated manual re-entry

Data Warehouse Intern Jul 2022 – Sep 2022

OSI Maritime Systems • Burnaby, BC

- Reduced inventory discrepancies by reconciling Sage 500 against PDX in Excel and fixing source data
- Improved data consolidation efficiency **20%** by unifying multiple sources onto a company-wide database

PROJECTS

Bike Demand Prediction Model | CS 330, UBC

- Forecasting model in Python and pandas using climate variables, achieving **85%** test set accuracy

InsightUBC, Course & Classroom Data Query Platform | CPSC 310, UBC

- Full-stack app (Node.js/Express, React) serving UBC datasets through a custom REST API and query engine
